Planting Stock Sale

11

of

True-to-Name Gladioli

There will be a tremendous shortage of Gladioli bulbs this year and for the next few years to come. Many of the leading growers have reduced their acreage 50%—this, in itself, would cause a shortage but on top of that the killing frosts of last October and November destroyed millions of bulbs.

We were fortunate in getting our bulbs into cold storage so that we are able to offer the following limited quantity for quick sale before the planting season.

Last year we sold over \$10,000 worth of bulbs during the month of May. This is too late for good results. This year we will have no bulbs to offer after the opening of the planting season.

Every bulb listed here is guaranteed. Now is the time to place your order. Don't wait and run the risk of not getting what you want.
